CIA IMAGERY ANALYSIS DIVISION

MOSCOW MOTOR VEHICLE PLANT IMENI LIKHACHEV

The Moscow Motor Vehicle Imeni Likhachev is located in the southern section of Moscow on the east bank of a bend in the Moscow River at coordinates 55 42 00N and 37 38 35E. The plant was observed on []

[] Analysis of the [] missions showed that there was no new construction during the period of coverage. [] although not the latest coverage, was chosen for mensuration and graphics as it provided the best quality. The study showed the plant contains 27 production buildings with a total floorspace of 5,680,240 square feet. 25X 25X

Figure 3 and Table I gives the relative location, description, and dimensions of all production buildings comprising this plant. All measurements were made by the NPIC Technical Intelligence Division with the exception of Item 27. This measurement was made by the CIA/IAD project analyst. It should be considered as approximate and must not be taken as official NPIC mensuration data. The NPIC/TID measurements are considered to be accurate within ± 5 feet or ± 5 percent whichever is greater.
